

Video Conferencing

Blackpool City Learning Centre

From a single user to our 100 seater theatre, video conferencing at the CLC delivers high quality experiences to everyone . The video conferencing systems used at the CLC enable users to communicate over video clearly and without compromise anywhere in the world. Recent Video Conferences held include an interview with a candidate in Hong Kong (who was successful) and a primary school in Australia.

The Benefits of Video Conferencing include:

Cross organization training is more efficient. Project, vendor and supplier management happens in real-time. Prospective employees are more easily recruited. And, customers and partners have closer integration with sales and support teams.

By using Video Conferencing at the CLC you are also:

- Reducing your CO₂ and Carbon Footprints
- Improving your Productivity and Efficiency
- Reducing your costs in relation to expensive travel or overnight accommodation
- Reducing Stress Levels
