

CLC MEDIA

We specialise in offering high quality corporate video productions. If your organisation has a duty to communicate an important message or celebrate important achievements we can offer a bespoke solution. If you need something more than just another PowerPoint presentation we can offer facilities and expertise to help you develop your initial idea through to affordable DVD production and duplication and conference presentation. Our customers have included local authorities, PCT and local businesses. Please contact our Digital Media Manager, Helen Chiula on 01253 478301 for more details.

We can also offer a variety of media training and team-building events from producing your own live TV news broadcast to producing a radio programme. We offer training in Final Cut Pro - the industry standard video editing package.

For media professionals working in the area we offer the hire of professional media equipment.

For longer rentals, please enquire for possible discounts.
